While Chairman of the Senate Committee on Science, Senator Barry Goldwater asked for information and was told that he was not on a "need to know" basis. This request, of Goldwater, had to do with an initial announcement from the Air Force that a "saucer" had crashed and that alien bodies were (at that point in time) located in a hanger, or other building, at Wright-Patterson Air Force Base, at Dayton, Ohio. Senator Goldwater was refused any information in this matter, along wit not being allowed to personally look inside of the alleged building.

Before taking office as President, Jimmy Carter announced to the public that, if elected, he would give the American people the Government's information about UFO's. This did not happen, and Mr. Carter was given a complete run-around - and I could tell you more about this, because I was contacted by the Pentagon on the matter.

b7C

[redacted]

The new Project Blue Book has 148 present, and/or former, Air Force, NC NASA, and intelligence-gathering agency personnel, among others, acting as advisor-consultants to PBB - anonymously. These are persons who, fo the most part, have/had been actively engaged in earlier UFO reports fo their respective agencies, and who are still muchly interested.

So, with this brief back-ground of information about me and about Gover ment participation, the "challenge" I have mentioned - would be to have you make inquiries at the highest levels of "officialdom" about what ou Government really knows, whether or not there ARE alien bodies located ANYWHERE, what happened to the crashed "flying saucers", where are the photo's taken by Air Force personnel through on-board gun cameras, and similar questioning. I am positive you would find that even you would be getting a general run-around and could not receive satisfactory answ to the above. I think you will/would find that you are not receiving all the information you should be receiving and which should be very evident to you after making several inquiries. You may tend to drop th matter, thinking you are receiving answers to your questions, but this will not be the case, I assure you.

8. NARRATIVE Martinez who was visiting his son-in-law Mauricio Gomez (brother of Manue
Gomez) heard a low flying aircraft in the vicinity of where the mutilated bull was
found at approximately 3:00 am on 4-24-78.

The 4" circulare imprints were identical to the ones found in a similar mutila
approximately 13 miles East of Dulce on June 13, 1976 which also involved one of Mr.
Manual Gomez's cattle. Investigation of these strange mutilations have been hamper
inability to find laboratories which will perform tests and report accurate finding
This writer was fortunate enough to have found this mutilation shortly after it occ
In other cases, animals are found only days or weeks after mutilation. It is write
opinion that these animals have been marked for some time before they are mutilated
Also investigation shows that all mutilations are to native cattle. In Rio Ar
County approximately 15,000 head of steers imported from Arizona, Mexico, Texas, etc
have not been mutilated. It is writer's theory that these animals are picked up by
aircraft, mutilated elsewhere and returned and dropped from aircraft. This is indic
from bruised meats and broken bones on cattle.

Identical mutilations have been taking place all over the Southwest. It is s
that no eye witnesses to these incidents have come forward or that no accidents or
have occured. One has to admit that whoever is responsible for the mutilations is
well organized with boundless technology and financing and secrecy.

Writer is presently getting equipment through the efforts of Mr. Edward Burgess,
Albuquerque, N. M. to detect substances on the cattle which might mark them and be pi

Mr. Sessions, I will not take more of your time in this matter, but, if you are interested, I would appreciate your looking into the matter. You may wish to appoint one of your office personnel to start making inquiry about UFO 's, in general, and see which Agencies to which you would be directed. Keep in mind, however, that some present office personnel, in the other agencies, may not know what you would be inquiring about - and will tell you that the Air Force Project Blue Book closed it's "doors" in 1969, and that the Air Force no longer investigates UFO sighting reports - this I already know. The important key is to go beyond the A ir Force and into the other agencies; such as the Office of Defense, C.I.A., etc. President Bush, when asked about UFO's, told the person asking "You do not know the half of it". As you know, President Bush was formerly with the C.I.A. His comments are on tape, by the way. .

Well, I think this should suffice for this time. I appreciate your patience in reading this letter, and should you desire any additional information, please do not hesitate to let me know. I would like, very much, to work through you, and with you, to endeavor to bring the matter of UFO's to a conclusion - if that conclusion is an honest one.

I hope you had a nice visit with your Dad, and c ome back for a visit again, soon.

Very sincerely,

[redacted]

67C

P.S. As sort of an "ultimate" challenge - why not ask President Bush, himself?

PROJECT BLUE BOOK

Inspired, and name-approved, by the United States Air Force.

There are a number of universities and professional scientific organizations such as the American Association for the Advancement of Science, which have considered UFO phenomena during periodic meetings and seminars. In addition, a list of private organizations interested in aerial phenomena may be found in Gale's Encyclopedia of Associations (Edition 8, Vol I, pp. 432-3). Such timely review of the situation by private groups insures that sound evidence will not be overlooked by the scientific community.

8. NARRATIVE On 4-24-78 at 7:30 A.M. this writer was contacted by Mr. Manuel Gomez, Dulce N. M. in reference to an eleven month old cross Herford-Charolais bull belonging to h had apparently been mutilated. Investigation showed that this eleven month old bull dropped by some type of aircraft north of Mr. Gomez's ranch house. (approximately 600 The rectum and sex organs had been removed with a sharp and precise instrument. The bone had also been removed. The bull sustained visable bruises around the brisket ar seeming to indicate that a strap was used to lift and lower the animal to and from th aircraft. The bull appeared to have been dead for about 5 hr. Prints were found 10 north of the slain animal. These 4" diameter round footprints led to the animal and 100 ft. where they apparently returned to a hovering aircraft. The imprints appeared be quite heavy since the ground was dry and hard and automobile tire tracks from the police car were barely visable.

These imprints appeared to have scraped the ground as they moved. The liver and heart of this animal was removed by writer. Both the liver and heart were white and mushy. Both organs had the texture and consistency of peanut butter. The carcus was dehydrated. The heart was taken to the Los Alamos Medical Laboratory to be analysed the liver was taken to 3 different private laboratories for examination. The Los Al Medical Laboratory returned a finding on the heart. (Report attached)

FROM LOS ALAMOS LABORATORY

~~Heart Tissue: No microscopic changes of pathological significance were~~

Bone Fragment: No microscopic changes of significance were found.

~~Skeletal Muscle: Rod shaped bacteria infiltrating connective tissue betw~~ muscle fibers were seen. Muscle fibers also contained c ~~vacuoles consistent with cysts.~~

8. NARRATIVE On 6-14-78 I was contacted by Mr. Manuel Gomez at 2:00 P.M. reference a mutilation which had taken place at his summer range 13 miles East of Dulce, N. M. The investigation at the scene revealed that a 4 year old Hereford native cow had been mutilated. The carcass was lying on it's Right side with tongue and sex organs precisely removed. Pinkish blood from her nose was visable and the left front leg was broken and also the rear left leg was broken. Hair was visable on the lower rear left leg where some type clamp or vice had been fastened. No tracks or tracks around the carcass were found. The mutilation site was approximately 300 yards North of the road where Manuel Gomez found a mutilated animal on June 14, 1976. Investigation at the scene showed that the animal was elsewhere and mutilated and then returned and dumped. This animal had 57 hears. One was broken off in the ground. This animal had been dead for approximately 24-36 hours and was decomposed for tests. This writer has evaluated several cattle mutilation investigations and has been observed that no mutilations have occurred during inclimate weather.

On 7-16-73 approximately 72 head of cattle belonging to Manuel Gomez were checked at night hours with an ultra-violet light. Out of the 72 cattle which were checked, 2 four year old cows and 3 two month old heifers had a distinctive fluorescence substance on the left forepart of their body. Samples of the florescent substance were sent to be analyzed by a private laboratory At the time of this writing, no results have been received. This was done by Mr. Howard Burgess, who has been most helpful in these investigations.

Mr. Manuel Gomez winters approximately 120 head of cattle within the village of Dulce, New Mexico. Mr. Gomez has had 4 animals mutilated to date. It is the theory of this in-

[redacted] Miscellaneous - Non-Subversive

67c

Dear [redacted]

I have received your July 24th letter in which you ask for my help in securing information relative to investigations of unidentified flying object (UFO) sightings.

I have discussed your request with my colleagues, and I would first like to explain that the investigation of UFOs is not now nor has it ever been the responsibility of the FBI. The Department of the Air Force conducted investigations and studies of UFO reports from 1947 to 1969. On December 17, 1969, the Secretary of the Air Force announced the termination of "Project Blue Book," and the Air Force has furnished all documents regarding its investigations of UFOs to the Modern Military Branch, National Archives and Records Administration, Eighth Street and Pennsylvania Avenue, N.W., Washington, D.C. 20408. I understand this data is available for public review and analysis. You may wish to make an inquiry of the Modern Military Branch for the answers to some of your questions.

Also of possible interest, the National Aeronautics and Space Administration was asked by President Carter to look into the possibility of resuming UFO investigations in 1977. After studying all the facts available, it decided that nothing would be gained by further investigation, and the Department of the Air Force agreed with that decision. You may also want to check with the National Aeronautics and Space Administration in connection with your research.

63-0-92191

I am not aware of any Federal agency tasked with the responsibility of investigating UFOs and hope this information will be of help to you and your organization.

Sincerely yours,

William S. Sessions

FBI/DOJ

DL 65C-

Dallas notes that within the last six weeks, there has been local publicity regarding "OPERATION MAJESTIC-12" with at least two appearances on a local radio talk show, discussing the MAJESTIC-12 OPERATION, the individuals involved, and the Government's attempt to keep it all secret. It is unknown if this is all part of a publicity campaign.

b7C per OSI [redacted] from OSI, advises that "OPERATION BLUE BOOK," mentioned in the document on page 4 did exist.

Dallas realizes that the purported document is over 35 years old, but does not know if it has been properly declassified.

REQUEST OF THE BUREAU

The Bureau is requested to discern if the document is still classified. Dallas will hold any investigation in abeyance until further direction from FBIHQ.

that whoever is responsible for these mutilations is operating out of a [illegible] undercover truck van which is heavily guarded. This van supposedly carries th craft which operates within a 40 mile radius. This makes it rather difficult investigating officers to personally witness or find clues to these mutilation area where the mutilations occur is carefully analyzed weeks in advance. The have been marked years in advance for mutilation.

Assisting in this investigation is Cattle Inspector Jim [illegible] and Officer R Johnston, New Mexico Game and Fish.

Officer Gabe Valdez
New Mexico State Police
Post Office Box 212
Dulce, New Mexico 87528

Dear Gabe:

Examination is now complete on the tissue samples from the recent incident at Dulce. Microscopic and bacteriologic studies were performed on three specimens consisting of heart muscle, skeletal muscle, and a bone fragment.

FINDINGS

(1) Heart Muscle: No microscopic changes of pathological significance were found.

(2) Bone Fragment: No microscopic changes of significance were found.

(3) Skeletal Muscle: Rod-shaped bacteria infiltrating connective tissue between muscle fibers were seen. Muscle fibers also contained occasional Sarcosporidia cysts.

(4) Bacteriology: A specimen obtained from a heart chamber was cultured and shown to contain a rod-shaped organism identified as Clostridium species. Definitive classification was not made.

INTERPRETATION

No definite conclusion can be drawn from the observation of bacterial infiltration of muscle since the infiltration could be post-mortem. The demonstration of Clostridium in the heart chambers similarly cannot be definitively ascribed as pathological because of the potential for contamination. While the findings are not inconsistent with a diagnosis of infection, the possibility of contamination prevents the conclusion that infection was the cause of death. The observation of Sarcosporidia cysts is not remarkable and could be seen in most beef animals from this region on careful examinatio

I doubt that you will find these observations helpful in your investigation because the bacteriological examination is inconclusive. However, we will support you in any way we can, and you are welcome to visit our laboratory to discuss your findings at your convenience. The offer for instrumentation support also remains open. If we can be of further assistance, please call. Warm personal regards.

Sincerely yours,

Donald F. Petersen
Alternate Health Division Leader

8. NARRATIVE Bacteriology: A specimen obtained from a heart chamber was cultured and
shown to contain a rod-shaped organism identified as Clos
species. Definitive classification was not made.

The liver was checked against a healthy food market liver which showed a differenc
mutilated bull's liver. The bull's liver contained no copper, and 4 times the amo
phosphorous, zinc, and potassium. No explanation for this condition is available
the present time. A group of microbiologists are comparing these abnormalities. T
of the private labs are being withheld but if enough evidence is found to prosecute
names of these laboratories will be released. Also the blood which came off of the
nose when it was presumeably dropped was light pink in color. This blood did not c
after several days. The hide on the animal was brittle and felt to touch like ciga
paper. Flesh underneath the hide was pinkish in color. A probable explanation fo
pinkish blood is a control type of radiation used to kill the animal, according to
tion experts. The red corpuldles are destroyed leaving the pale pinkish color. Al
toxicology findings on blood are negative because of the dissimination of the radia

It is believed that this type of radiation is not harmful to humans, although
approximately 7 people who visited the mutilation site complained of nausea and head
however, this writer has had no such symptoms after checking approximately 11 cattl
in the past 4 months.

The only entrance to this mutilation site is through Mr. Gomez's front yard.
vehicle was seen or heard entering the pasture. The slain bull was last seen at ap
proximately 8:00 pm on 4-23-78 and appeared healthy at this time. However, a Mr. J

The NEW
PROJECT BLUE BOOK

Inspired, and name-approved, by the United States Air Force.

b7C [redacted]

July 24, 1989

Mr. William S. Sessions, Director
U.S. Department of Justice
Federal Bureau of Investigations
Washington, D.C. 20535

Dear Mr. Sessions:

You may recall that, while you were in Fort Smith visiting your Father, I called and, briefly, mentioned my keen desire to meet with you and to discuss the phenomenon of [redacted], in general, and the role of U. S. Government participation, in particular.

I said that I wished to issue a "challenge" to you (not that you do not challenges on a daily basis) pertaining to UFO's. You stated that you were interested, and to write you - and which I am now doing. I could write "pages" on the matter, but rather than to do so - it will be lengthy enough for me to endeavor to give you information I wish to convey in this letter.

In any event, the U.S. Government has played important roles in the evaluation of UFO reported sightings. The new Project Blue Book is a "continuation" of the original Project Blue Book, established by the Air Force, and was located at Wright-Patterson Air Force Base, Dayton, Ohio. Some of the most important sighting "announcements" came from the Air Force, and which were, later, stated to be something not in the original announcements - in a cover-up of the initial announcement. This repeatedly happened much to the chagrin of the Air Force. Original members of the Project Blue Book found that many reports never were received by this group, but went to intelligence-gathering agencies.

63-0-92190

While Director of the F.B.I., Mr. J. Edgar Hoover (whose personnel reported some of the sightings themselves and who were, otherwise, brought in to some of the cases) repeatedly asked the Air Force for complete information about the UFO's - to no avail. They (the Air Force) would not release certain case reports to Mr. Hoover. Even with the present F.O.I., mostly sanitized version/copies are received and with information requested completely blocked-out.

At 12:10 p.m. on 10/18/91, an individual identifying himself as [redacted] telephonically contacted the Salt Lake City Division and spoke with the duty Agent, SA [redacted] identified himself as an employee of [redacted] Utah, telephone number [redacted], extension [redacted] advised SA [redacted] that while walking through the lobby of his place of employment on the morning of 10/18/91, he found the enclosed document lying on the lobby floor. [redacted] stated that he read the document and due to the nature of the contents thereof, decided to contact the FBI. During the early afternoon of 10/18/91, [redacted] delivered the enclosed document to the receptionist in the Salt Lake City Field Office.

Salt Lake City indices are negative on [redacted] A review of public source records revealed the following information:

[redacted]

Based upon the contents of the document and the manner in which it was recovered, Salt Lake City initially dismissed the document and its classification markings as a hoax. In an effort to determine possible DOD interest in the unusual document, via referenced secure telecall on 10/25/91, SSA [redacted] was provided with a synopsis of the contents of the enclosed document, with a request for him to determine through his DOD contacts any DOD interest in "OPERATION MAJESTIC-12", U.S. AIR FORCE "PROJECT SIGN" or "PROJECT GRUDGE".
